GLOVER PARK HARDWARE NOW OFFERING CURBSIDE PICKUP DURING PARKING LOT RENOVATIONS

For immediate release
July 18, 2013

Washington, DC- Local hardware store Glover Park Hardware is now offering curbside pickup to accommodate customers while their parking lot undergoes extensive renovations this year.

To facilitate customers who require parking access at the store, Glover Park Hardware has launched a new curbside pickup program. The program offers shoppers several ways in which they can shop and pick up their items at a scheduled time in lieu of parking. Depending on the customer's needs, Glover Park Hardware is offering the following options for curbside pickup:

1. **Personal Shoppers-** customer calls ahead everything is waiting for them at the register (requires 45 minute lead time)
2. **Call, Charge and Pickup-** customer calls ahead and provides a credit card so the items are paid for when the customer arrives for curbside pickup (never leave the car!)
3. **Shop and Pickup-** customer shops, pays in the store then comes back with their car and picks up items with help of associates
4. **Walking Delivery-** free delivery within a ¼ mile radius of store—truck delivery options available for larger radius

These options will be available to customers effective immediately and will continue until the projected construction completion date of September 2014.

Information on curbside pickup can be found on our website at www.acehardware.com, or customers can pick up information on the program in store. Curbside pickup can be schedule through our store manager Jay Rushing and assistant manager Noe Delgado by calling the store at (202) 333-6378, or by sending inquiries to jayr@acehardware.com or noe@acehardware.com. Please allow 1-2 days for a reply via email.
